

Certified Services for Intapp Products

Professional and technology services to help you implement, customize, and learn how to use Intapp products.

You rely on software to run your firm.

Rely on Wilson Legal Solutions to get better performance out of your software, your people, and your firm.

Intapp products allow firms to effectively align business operations with business strategy and are recognized as the most advanced in their respective categories. Wilson Legal Solutions helps firms get greater value out of their investment in Intapp products.

Wilson Legal Solutions has successfully completed the certification process to provide services for all Intapp products. Our professional and technology services help you implement, customize, and learn how to use Intapp products with greater ease, including Intapp Integrate, Intapp Open, Intapp Flow, Intapp Time, and Intapp Walls software. We are also a Certified 3E Services Partner for Thomson Reuters Elite.

Key Differentiators

- Certified to provide services for all Intapp products

- **Training:** Delivery of joint-development training programs for Integrate, Open, Flow, and Time

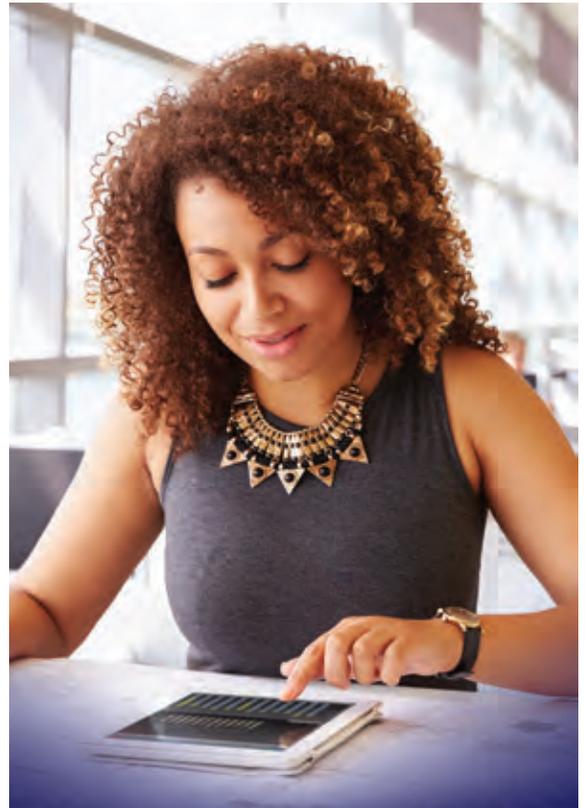

Why Choose Wilson Legal Solutions for Intapp Services?

When you choose Wilson Legal Solutions, you're working with consultants that help the world's largest law firms maximize the return on their software investments. Many of our consultants have spent their careers in the legal technology industry, helping law firms reach new levels of operational efficiency and profitability.

The history of Wilson Legal Solutions began in 1987 with the launch of Wilson Technology, a custom legal software provider. In 2005, Wilson Technology was acquired by Thomson Elite, and key members of Wilson's team became responsible for Elite's newly formed business intelligence segment.

As the impact of the Great Recession reached the legal community, many firms began downsizing internal resources, creating demand for software services. Thus, Wilson Legal Solutions was launched in 2009.

Since that time the company has grown steadily, bringing together many of Wilson Technology's original team with valued members of the legal technology community to create one of the industry's most respected software and services companies.

Wilson Legal Solutions: Offerings at a Glance

Wilson Legal Solutions is a leading global provider of consulting services and analytic solutions that enable law firms and professional services firms to enhance business performance. Our offerings help you streamline processes, gain a competitive advantage, and stay focused on the bottom line.

Software

Better data analysis translates into smarter decisions. Wilson Ideate software makes it easier to access, analyze, and share the data that drives better decisions.

Consulting Services

Our extensive range of professional and technology services can support you throughout the life cycle of your software — from project management, implementations, upgrades, and testing to reporting, customization, and training.

Advisory Services

Your ability to make data-driven decisions impacts how well your business performs. Our business of law experts leverage in-depth insight of business analytics to help support your most strategic decisions.

Certified Partner Services

Anyone can claim expertise. We back our claim with an unmatched history, a proven track record, and by meeting rigorous certification standards of both Intapp and Thomson Reuters Elite.
